# Subject Index: Volume 42

**Abciximab**
Outcome of urgent and elective percutaneous coronary interventions after pharmacologic reperfusion with tenecteplase combined with unfractionated heparin, enoxaparin, or abciximab, 1178
Randomized trial comparing primary infarct artery stenting with or without abciximab in acute myocardial infarction, 1880
**Ablation**
*See also* Surgery
Ablation of atrial fibrillation: awaiting the new paradigm (editorial), 198
Linear ablation for atrial fibrillation (editorial), 1283
Mortality, morbidity, and quality of life after circumferential pulmonary vein ablation for atrial fibrillation, 185
Significant gender-related differences in radiofrequency catheter ablation therapy, 1103
**ACC**
ACC/AHA/ASE 2003 Guideline Update for the Clinical Application of Echocardiography: Summary Article, 954
ACC/AHA/ASNC Guidelines for the Clinical Use of Cardiac Radionuclide Imaging—Executive Summary, 1318
ACC/AHA/ESC Guidelines for the Management of Patients With Supraventricular Arrhythmias—Executive Summary, 1493
American College of Cardiology/European Society of Cardiology Clinical Expert Consensus Document on Hypertrophic Cardiomyopathy, 1687
Highlights of the 52nd Annual Scientific Session of the American College of Cardiology, 375
J-1: the forgotten cardiovascular force (letter), 1716
**ACC News**
Newly elected members of the college, 1861
President's page: cardiovascular subspecialties: uniting under a single umbrella to gain strength in support of common interests, 1685
President's page: counting heads, coming up short: the ratio of cardiologists to patients is becoming inadequate, 585
President's page: creating and adopting an ACC ethical code of conduct, 2028
Rethink retirement: plan a second career in cardiology, 1316
**ACE/DD genotype**
ACE/DD genotype is associated with the extent of exercise-induced left ventricular growth in endurance athletes, 527
**Activated protein C**
Effect of activated protein C on plasma plasminogen activator inhibitor activity in patients with acute myocardial infarction treated with alteplase, 1389
**Acute coronary syndromes**
Acute coronary syndromes, plaque vulnerability, and carotid artery disease (editorial), 1033
Are levels of C-reactive protein and troponin T the best predictors of mortality after acute coronary syndrome? (letter), 1144
Clinical implications of carotid artery remodeling in acute coronary syndrome, 1026
Impact on coagulation of an intravenous loading dose in addition to a subcutaneous regimen of low-molecular-weight heparin in the initial treatment of acute coronary syndromes, 424
Recurrent cardiac ischemic events early after discontinuation of short-term heparin treatment in acute coronary syndromes: results from the TIMI 11B and ESSENCE studies, 2083
Use of brain natriuretic peptide levels for risk assessment in non–ST-elevation acute coronary syndromes (editorial), 1919
Waiting times, revascularization modality, and outcomes after acute myocardial infarction at hospitals with and without on-site revascularization facilities in Canada, 410
**Acute myocardial infarction**
*See* Myocardial infarction
**Adenosine**
Nonelectrocardiographic evidence that both ischemic preconditioning and adenosine preconditioning exist in humans, 437
**Adenosine receptors**
Termination of paroxysmal supraventricular tachycardia by tecadenoson (CVT-510), a novel $A_1$-adenosine receptor agonist, 1098
**Adenoviral gene for fibroblast growth factor**
Randomized, double-blind, placebo-controlled trial of Ad5FGF-4 gene therapy and its effect on myocardial perfusion in patients with stable angina, 1339
**Adenovirus**
Detection of viruses in myocardial tissues by polymerase chain reaction: evidence of adenovirus as a common cause of myocarditis in children and adults, 466
**Ad5FGF-4**
Randomized, double-blind, placebo-controlled trial of Ad5FGF-4 gene therapy and its effect on myocardial perfusion in patients with stable angina, 1339
**Adolescents**
Does sports activity enhance the risk of sudden death in adolescents and young adults?, 1961
Recurrent pericarditis in children and adolescents, 759
**African-Americans**
Response to renin-angiotensin system antagonists in hypertensive black subjects (letter), 1141
**Age and aging**
*See also* Elderly
Age: a nonmodifiable risk factor? (editorial), 1427
Age does not limit quality of life improvement in cardiac valve surgery, 1208
Age-dependent depression in circulating endothelial progenitor cells in patients undergoing coronary artery bypass graft surgery, 2073
Clinical course of hypertrophic cardiomyopathy with survival to advanced age, 882
Modulating effects of age and gender on the clinical course of long QT syndrome by genotype, 103
Peripheral sympathetic control during dobutamine infusion: effects of aging and heart failure, 1605
Prediction of risk for first age-related cardiovascular events in an elderly population: the incremental value of echocardiography, 1199
Unchanged G-protein-coupled receptor kinase activity in the aging human heart, 1487
**Aldosterone**
Additive improvement of left ventricular remodeling and neurohormonal activation by aldosterone receptor blockade with eplerenone and ACE inhibition in rats with myocardial infarction, 1666
Aldosterone antagonism and myocardial infarction (editorial), 1674
**Allografts**
Plasma C-reactive protein as a marker of cardiac allograft vasculopathy in heart transplant recipients, 477
**Alteplase**
Effect of activated protein C on plasma plasminogen activator inhibitor activity in patients with acute myocardial infarction treated with alteplase, 1389
**American College of Cardiology**
*See* ACC
**American Society of Echocardiography**
Meeting highlights of the 14th annual scientific sessions of the American Society of Echocardiography, 2149
**Amiodarone**
Maintenance of sinus rhythm in patients with atrial fibrillation, 20
**Anabolic steroids**
Anabolic steroid-induced echocardiographic characteristics of professional football players? (letter), 588
**Androgens**
Androgens up-regulate atherosclerosis-related genes in macrophages from males but not females, 1306
Dehydroepiandrosterone, an adrenal androgen, increases human foam-cell formation, 1969
**Aneurysms**
Atrial anatomy in non-cardioembolic stroke patients, 1066
Sustained cavity obliteration and apical aneurysm formation in apical hypertrophic cardiomyopathy, 288
**Angina pectoris**
Dilate or defer? View of a skeptic (editorial), 1171
External counterpulsation (ECP) therapy improves endothelial function in patients with refractory angina pectoris, 2090
Randomized, double-blind, placebo-controlled trial of Ad5FGF-4 gene therapy and its effect on myocardial perfusion in patients with stable angina, 1339
Seven-year outcome in the RITA-2 trial: coronary angioplasty versus medical therapy, 1161
**Angiogenesis**
Rescue of hypercholesterolemia-related impairment of angiogenesis by oral folate supplementation, 364
**Angiography**
Angiographic predictors of adverse outcomes in the modern interventional era (editorial), 989
Angiographic variables predict increased risk for adverse ischemic events after coronary stenting with glycoprotein IIb/IIIa inhibition, 981
Clinical and angiographic correlates and outcomes of suboptimal coronary flow in patients with acute myocardial infarction undergoing primary percutaneous coronary intervention, 1739
Clinical utility of computed tomography and magnetic resonance techniques for noninvasive coronary angiography, 1867
Heart rate recovery after exercise is a predictor of mortality, independent of the angiographic severity of coronary disease, 831

Highlights of the 52nd Annual Scientific Session of the American College of Cardiology, 375

**Angioplasty**
*See also* Balloon angioplasty; Percutaneous transluminal coronary angioplasty
Dilate or defer? View of a skeptic (editorial), 1171
Glucose-insulin-potassium infusion in patients treated with primary angioplasty for acute myocardial infarction, 784
Outcomes of optimal or "stent-like" balloon angioplasty in acute myocardial infarction: the CADILLAC trial, 971
Randomized comparison of repeat stenting with balloon angioplasty in patients with in-stent restenosis, 796
Seven-year outcome in the RITA-2 trial: coronary angioplasty versus medical therapy, 1161
Symptom-onset-to-balloon time and mortality in patients with acute myocardial infarction treated by primary angioplasty, 991

**Angioscopy**
Changes in coronary plaque color and morphology by lipid-lowering therapy with atorvastatin: serial evaluation by coronary angioscopy, 680
Through the looking glass (editorial), 687

**Angiotensin II**
Attenuation of virus-induced myocardial injury by inhibition of the angiotensin II type 1 receptor signal and decreased nuclear factor-kappa B activation in knockout mice, 173
Induction of left ventricular remodeling and dysfunction in the recipient heart after donor heart myocardial infarction, 173
Involvement of reactive oxygen species in angiotensin II-induced endothelin-1 gene expression in rat cardiac fibroblasts, 1845
Multiple actions of angiotensin II in hypertension: benefits of $AT_1$ receptor blockade (editorial), 911

**Angiotensin II receptor blocker**
Multiple actions of angiotensin II in hypertension: benefits of $AT_1$ receptor blockade (editorial), 911
Pleiotropic effects of angiotensin II receptor blocker in hypertensive patients, 905

**Angiotensin II receptors**
Expression of angiotensin II receptors in human left and right atrial tissue in atrial fibrillation with and without underlying mitral valve disease, 1785

**Angiotensin-converting enzyme inhibitors**
*See also specific agent*
ACE inhibitors: ischemia isn't the correct measure of benefit (editorial), 2060
Additive improvement of left ventricular remodeling and neurohormonal activation by aldosterone receptor blockade with eplerenone and ACE inhibition in rats with myocardial infarction, 1666
Aspirin, beta-blocker, and angiotensin-converting enzyme inhibitor therapy in patients with end-stage renal disease and an acute myocardial infarction, 201
Beta-blockers and angiotensin-converting enzyme inhibitors/receptor blockers prescriptions after hospital discharge for heart failure are associated with decreased mortality in Alberta, Canada, 1438
Effects of ACE inhibition on transient ischemia: the QUinapril Anti-ischemia and Symptoms of Angina Reduction (QUASAR) trial, 2049

**Angiotensin-converting enzyme polymorphism**
Angiotensin-converting enzyme polymorphism (I/D) and coronary heart disease in young adults (letter), 1864

**Anomalous origin of a coronary artery**
Prospective echocardiographic diagnosis and surgical repair of anomalous origin of a coronary artery from the opposite sinus with an interatrial course, 148
What is the most effective method of detecting anomalous coronary origin in symptomatic patients? (editorial), 155

**Antiarrhythmic drugs**
Are lipid-lowering drugs also antiarrhythmic drugs?, 81
Maintenance of sinus rhythm in patients with atrial fibrillation, 20

**Anticoagulants**
*See also* Aspirin; Heparin
Optimal intensity of vitamin K antagonists in patients with mechanical heart valves; a meta-analysis, 2042
Outcome of urgent and elective percutaneous coronary interventions after pharmacologic reperfusion with tenecteplase combined with unfractionated heparin, enoxaparin, or abciximab, 1178

**Antiplatelet agents**
Platelet inhibition strategies in percutaneous coronary intervention (editorial), 1196
Triple antiplatelet therapy during percutaneous coronary intervention is associated with improved outcomes including one-year survival, 1188

**Anxiety**
Anxiety, depression, and prognosis after myocardial infarction (editorial), 1808
Comparing symptoms of depression and anxiety as predictors of cardiac events and increased health care consumption after myocardial infarction, 1801

**Aortic dilatation**
Is aortic dilatation an atherosclerosis-related process?, 1076

**Aortic root**
Neo-aortic root dilation and valve regurgitation up to 21 years after staged reconstruction for hypoplastic left heart syndrome, 533

**Aortic stenosis**
Is aortic stenosis a preventable disease?, 593
Magnetic resonance to assess the aortic valve area in aortic stenosis, 519

**Aortic valve**
Magnetic resonance to assess the aortic valve area in aortic stenosis, 519

**Apical hypertrophic cardiomyopathy**
Sustained cavity obliteration and apical aneurysm formation in apical hypertrophic cardiomyopathy, 288

**Apoptosis**
Dendritic cells in neointima formation after rat carotid balloon injury: coordinated expression with anti-apoptotic Bcl-2 and HSP47 in arterial repair, 930

**Arrhythmias**
*See also* Atrial fibrillation; Atrial flutter; Ventricular tachycardia
ACC/AHA/ESC Guidelines for the Management of Patients With Supraventricular Arrhythmias—Executive Summary, 1493
Highlights of the 52nd Annual Scientific Session of the American College of Cardiology, 375
Ventricular arrhythmia induced by sodium channel blocker in patients with Brugada syndrome, 1624

**Arrhythmogenic right ventricular dysplasia**
Recessive mutation in desmoplakin causes arrhythmogenic right ventricular dysplasia, skin disorder, and woolly hair, 319

**Arterial remodeling**
Arterial remodeling patterns before intervention predict diffuse in-stent restenosis, 1731
Intravascular ultrasound assessment of patterns of arterial remodeling in the absence of significant reference segment plaque burden in patients with coronary artery disease, 806
Vascular remodeling: do we really need yet another study? (editorial), 811

**Arteries**
*See* Coronary arteries; *specific artery*

**Arteriopathy**
Reduced myocardial perfusion reserve and transmural perfusion gradient in heart transplant arteriopathy assessed by magnetic resonance imaging, 1054

**Aspirin**
Aspirin, beta-blocker, and angiotensin-converting enzyme inhibitor therapy in patients with end-stage renal disease and an acute myocardial infarction, 201
Determination of the natural history of aspirin resistance among stable patients with cardiovascular disease (letter), 1336
Randomized trial of aspirin on the risk factors of embolic events in patients with infective endocarditis, 775
Resistance in vitro to low-dose aspirin is associated with platelet $P1^{A1}$ (GP IIIa) polymorphism but not with C807T (GP Ia/IIa) and C-5T Kozak (GP Ibα) polymorphisms, 1115

**Atheroma**
Prognostic importance of endothelial dysfunction and carotid atheroma burden in patients with coronary artery disease, 1037

**Atherosclerosis**
*See also* Coronary artery disease

**Percutaneous coronary interventions**
Angiographic predictors of adverse outcomes in the modern interventional era (editorial), 989
Circadian variations in outcome of primary PCI (letter), 2172
Clinical and angiographic correlates and outcomes of suboptimal coronary flow in patients with acute myocardial infarction undergoing primary percutaneous coronary intervention, 1739
Frequency and clinical significance of ischemic preconditioning during percutaneous coronary intervention, 998
Incidence, predictors, and outcomes of early reinfarction after primary angioplasty for acute myocardial infarction, 1173
Long-term outcome of patients with silent versus symptomatic ischemia six months after percutaneous coronary intervention and stenting, 33
Mortality risk conferred by small elevations of creatine kinase-MB isoenzyme after percutaneous coronary intervention, 1406
Novel point-of-care enoxaparin monitor for use during percutaneous coronary intervention, 1132
Outcome of urgent and elective percutaneous coronary interventions after pharmacologic reperfusion with tenecteplase combined with unfractionated heparin, enoxaparin, or abciximab, 1178
Percutaneous coronary intervention for cardiogenic shock in the SHOCK trial, 1380
Percutaneous coronary intervention in octogenarians and the safety of glycoprotein IIb/IIIa receptor inhibitors (editorial), 433
Percutaneous coronary interventions in octogenarians: glycoprotein IIb/IIIa receptor inhibitors' safety profile, 428
Platelet inhibition strategies in percutaneous coronary intervention (editorial), 1196
Prospective, randomized evaluation of thrombectomy prior to percutaneous intervention in diseased saphenous vein grafts and thrombus-containing coronary arteries, 2009
Risk assessment for percutaneous coronary intervention: our version of the weather report? (editorial), 1898
Risk score for percutaneous coronary intervention: forewarned is forearmed (editorial), 1729
Silent ischemia: unsafe at any time (editorial), 41
Simplified scoring system for predicting mortality after percutaneous coronary interventions, 1892
Triple antiplatelet therapy during percutaneous coronary intervention is associated with improved outcomes including one-year survival, 1188
Twist in our understanding of enzyme elevation after coronary intervention (editorial), 1908
Validation of Mayo Clinic risk adjustment model for in-hospital complications after percutaneous coronary interventions, using the National Heart, Lung, and Blood Institute Dynamic Registry, 1722

**Percutaneous transluminal coronary angioplasty**
Angiographic variables predict increased risk for adverse ischemic events after coronary stenting with glycoprotein IIb/IIIa inhibition, 981
Dilate or defer? View of a skeptic (editorial), 1171
Glucose-insulin-potassium infusion in patients treated with primary angioplasty for acute myocardial infarction, 784
Incidence, predictors, and outcomes of early reinfarction after primary angioplasty for acute myocardial infarction, 1173
Intracoronary thrombectomy improves myocardial reperfusion in patients undergoing direct angioplasty for acute myocardial infarction, 1395
Outcomes of optimal or "stent-like" balloon angioplasty in acute myocardial infarction: the CADILLAC trial, 971
Percutaneous treatment of saphenous vein graft disease (editorial), 1370
Randomized trial of polytetrafluoroethylene-membrane-covered stents compared with conventional stents in aortocoronary saphenous vein grafts, 1360
Seven-year outcome in the RITA-2 trial: coronary angioplasty versus medical therapy, 1161
Symptom-onset-to-balloon time and mortality in patients with acute myocardial infarction treated by primary angioplasty, 991

**Perfusion**
Acute beta-blockade reduces the extent and severity of myocardial perfusion defects with dipyrida-

mole Tc-99m sestamibi SPECT imaging, 1475
Incremental value of combined perfusion and function over perfusion alone by gated SPECT myocardial perfusion imaging for detection of severe three-vessel coronary artery disease, 64
New insights into the relationship between myocardial perfusion and lipid-lowering (editorial), 611
Pinhole single-photon emission computed tomography for myocardial perfusion imaging of mice, 576
Prospective serial evaluation of myocardial perfusion and lipids during the first six months of pravastatin therapy, 600
Randomized, double-blind, placebo-controlled trial of Ad5FGF-4 gene therapy and its effect on myocardial perfusion in patients with stable angina, 1339
Reduced myocardial perfusion reserve and transmural perfusion gradient in heart transplant arteriopathy assessed by magnetic resonance imaging, 1054
Retrograde coronary perfusion: a superior route to deliver therapeutics to the heart? (editorial), 1129
Thromboxane inhibition improves renal perfusion and excretory function in severe congestive heart failure, 133
Transient ischemic dilation ratio of the left ventricle is a significant predictor of future cardiac events in patients with otherwise normal myocardial perfusion SPECT, 1818

**Pericarditis**
Cardiac troponin I in acute pericarditis, 2144
Recurrent pericarditis in children and adolescents, 759

**Peroxisome proliferator-activated receptors**
Effects of rosiglitazone, a peroxisome proliferator-activated receptor-gamma agonist, on markers of endothelial cell activation, C-reactive protein, and fibrinogen levels in non-diabetic coronary artery disease patients, 1757
Peroxisome proliferator-activated receptors as therapeutic targets in inflammation (editorial), 1764

**Peroxynitrite**
Role for peroxynitrite in the inhibition of prostacyclin synthase in nitrate tolerance, 1826

**Phosphodiesterase 5 inhibitors**
Time course of the interaction between tadalafil and nitrates, 1855

**Phospholipids**
Phospholipid abnormalities in children with Barth syndrome, 1996

**Physical activity**
Is nutritional intake adequate in chronic heart failure patients?, 1218
Physical activity reduces genetic susceptibility to increased central systolic pressure augmentation: a study of female twins, 264

**Physiologic hypertrophy**
New upper limit of physiologic cardiac hypertrophy in Japanese participants in the 100-km ultramarathon, 1617

**Plaque**
Acute coronary syndromes, plaque vulnerability, and carotid artery disease (editorial), 1033
Changes in coronary plaque color and morphology by lipid-lowering therapy with atorvastatin: serial evaluation by coronary angioscopy, 680
Intravascular ultrasound assessment of patterns of arterial remodeling in the absence of significant reference segment plaque burden in patients with coronary artery disease, 806
Morphologic changes in infarct-related plaque after coronary stent placement, 1558
Through the looking glass (editorial), 687
Toward understanding the evolution of plaque rupture (editorial), 1566

**Plasminogen activator inhibitor**
Effect of activated protein C on plasma plasminogen activator inhibitor activity in patients with acute myocardial infarction treated with alteplase, 1389

**Platelets**
Resistance in vitro to low-dose aspirin is associated with platelet $P1^{A1}$ (GP IIIa) polymorphism but not with C807T (GP Ia/IIa) and C-5T Kozak (GP Ibα) polymorphisms, 1115

**Polymerase chain reaction**
Detection of viruses in myocardial tissues by polymerase chain reaction: evidence of adenovirus as a common cause of myocarditis in children and adults, 466

**Polytetrafluoroethylene**
Randomized trial of polytetrafluoroethylene-membrane-covered stents compared with conventional stents in aortocoronary saphenous vein grafts, 1360

**Postmenopausal women**
*See also* Women
Effects of raloxifene on endothelium-dependent dilation, lipoproteins, and markers of vascular function in postmenopausal women with coronary artery disease, 698

**Potassium**
New oral therapy for long QT syndrome, 1777
Potassium and long QT syndrome (editorial), 1783

**Pravastatin**
Prospective serial evaluation of myocardial perfusion and lipids during the first six months of pravastatin therapy, 600

**Preconditioning**
Frequency and clinical significance of ischemic preconditioning during percutaneous coronary intervention, 998
Myocardial response to ischemic preconditioning: is it a novel predictor of prognosis? (editorial), 1004
Nonelectrocardiographic evidence that both ischemic preconditioning and adenosine preconditioning exist in humans, 437

**Precordial leads**
QT-interval prolongation in right precordial leads: an additional electrocardiographic hallmark of Brugada syndrome, 1632

**Prediction models**
Clinical prediction models: are we building better mousetraps? (editorial), 851

**Primary care**
Plasma amino-terminal pro-brain natriuretic peptide and accuracy of heart-failure diagnosis in primary care: a randomized, controlled trial, 1793

**Primary pulmonary hypertension**
*See* Pulmonary hypertension

**Progenitor cells**
Age-dependent depression in circulating endothelial progenitor cells in patients undergoing coronary artery bypass graft surgery, 2073
Aging of progenitor cells: limitation for regenerative capacity? (editorial), 2081

**Prostacyclin synthase**
Role for peroxynitrite in the inhibition of prostacyclin synthase in nitrate tolerance, 1826

**Prosthetic heart valves**
Choice of prosthetic heart valves: update for the next generation, 1717
Next generation of prosthetic heart valves needs a proven track record of patient outcomes at ≥15 to 20 years, 1720
Optimal intensity of vitamin K antagonists in patients with mechanical heart valves; a meta-analysis, 2042

**Protein C**
Effect of activated protein C on plasma plasminogen activator inhibitor activity in patients with acute myocardial infarction treated with alteplase, 1389

**Psychological well-being**
Long-term statin use and psychological well-being, 690

**Pulmonary hypertension**
Oral sildenafil as long-term adjunct therapy to inhaled iloprost in severe pulmonary arterial hypertension, 158

**Pulmonary stenosis**
Pulmonary vein isolation using transvenous catheter cryoablation for treatment of atrial fibrillation without risk of pulmonary stenosis, 752

**Pulmonary thrombosis**
Pulmonary thrombosis in adults with Eisenmenger syndrome, 1984

**Pulmonary valve**
Neo-aortic root dilation and valve regurgitation up to 21 years after staged reconstruction for hypoplastic left heart syndrome, 533

**Pulmonary vein**
High resolution mapping of the pulmonary vein and the vein of Marshall during induced atrial fibrillation and atrial tachycardia in a canine model of pacing-induced congestive heart failure, 348
Morphology of atrial myocardium in human pulmonary veins, 1108
Pulmonary vein isolation using transvenous catheter cryoablation for treatment of atrial fibrillation without risk of pulmonary stenosis, 752

**Pulmonary vein ablation**
Mortality, morbidity, and quality of life after circumferential pulmonary vein ablation for atrial fibrillation, 185

**Pulse wave velocity**
Endothelin-1 regulates arterial pulse wave velocity in vivo, 1977

**QRS duration**
Long-term effectiveness of cardiac resynchronization therapy in patients with refractory heart failure and "narrow" QRS, 2117
Predicting cardiac resynchronization response by QRS duration, 2125

**QT interval**
QT-interval prolongation in right precordial leads: an additional electrocardiographic hallmark of Brugada syndrome, 1632

**Quality of life**
Age does not limit quality of life improvement in cardiac valve surgery, 1208
Mortality, morbidity, and quality of life after circumferential pulmonary vein ablation for atrial fibrillation, 185
Valve surgery in the elderly (editorial), 1215

**Quinapril**
Effects of ACE inhibition on transient ischemia: the QUinapril Anti-ischemia and Symptoms of Angina Reduction (QUASAR) trial, 2049

**Radiofrequency ablation**
*See also* Ablation

**Radiofrequency catheter ablation**
Significant gender-related differences in radiofrequency catheter ablation therapy, 1103
**Radionuclide imaging**
ACC/AHA/ASNC Guidelines for the Clinical Use of Cardiac Radionuclide Imaging—Executive Summary, 1318
**Radiotherapy**
Asymptomatic cardiac disease following mediastinal irradiation, 743
Cardiac complications of mediastinal radiotherapy (editorial), 750
Mechanisms behind intracoronary radiation therapy failure (letter), 395
**Raloxifene**
Effects of raloxifene on endothelium-dependent dilation, lipoproteins, and markers of vascular function in postmenopausal women with coronary artery disease, 698
**Reactive oxygen species**
Involvement of reactive oxygen species in angiotensin II-induced endothelin-1 gene expression in rat cardiac fibroblasts, 1845
**Recanalization**
Synergistic treatment of ST-segment elevation myocardial infarction with pharmacoinvasive recanalization, 646
**Receptor blockers**
Beta-blockers and angiotensin-converting enzyme inhibitors/receptor blockers prescriptions after hospital discharge for heart failure are associated with decreased mortality in Alberta, Canada, 1438
**Rehabilitation**
Peak oxygen intake and cardiac mortality in women referred for cardiac rehabilitation, 2139
**Reinfarction**
Early and long-term clinical outcomes associated with reinfarction following fibrinolytic administration in the Thrombolysis in Myocardial Infarction Trials, 7
Incidence, predictors, and outcomes of early reinfarction after primary angioplasty for acute myocardial infarction, 1173
**Remodeling**
Additive improvement of left ventricular remodeling and neurohormonal activation by aldosterone receptor blockade with eplerenone and ACE inhibition in rats with myocardial infarction, 1666
Clinical implications of carotid artery remodeling in acute coronary syndrome, 1026
Induction of left ventricular remodeling and dysfunction in the recipient heart after donor heart myocardial infarction, 173
Intravascular ultrasound assessment of patterns of arterial remodeling in the absence of significant reference segment plaque burden in patients with coronary artery disease, 806
Matrix metalloproteinases and atrial structural remodeling (editorial), 345
Vascular remodeling: do we really need yet another study? (editorial), 811
**Renal insufficiency**
Do associations with C-reactive protein and extent of coronary artery disease account for the increased cardiovascular risk of renal insufficiency?, 57
Renal insufficiency and worsened prognosis with STEMI (editorial), 1544
**Renal perfusion**
Thromboxane inhibition improves renal perfusion and excretory function in severe congestive heart failure, 133
**Renin-angiotensin system**
Response to renin-angiotensin system antagonists in hypertensive black subjects (letter), 1141
**Reperfusion**
Confusion in reperfusion (editorial), 1186
Intracoronary thrombectomy improves myocardial reperfusion in patients undergoing direct angioplasty for acute myocardial infarction, 1395
Outcome of urgent and elective percutaneous coronary interventions after pharmacologic reperfusion with tenecteplase combined with unfractionated heparin, enoxaparin, or abciximab, 1178
Preferred reperfusion strategy for acute myocardial infarction (editorial), 1888
Prognostic significance of coronary blood flow velocity patterns in patients with reperfused acute myocardial infarction and TIMI-2 flow (letter), 182
Safety and efficacy of subcutaneous enoxaparin versus intravenous unfractionated heparin and tirofiban versus placebo in the treatment of acute ST-segment elevation myocardial infarction patients ineligible for reperfusion (TETAMI), 1348
Visualization of risk-area myocardium as a high-intensity, hyperenhanced "hot spot" by myocardial contrast echocardiography following coronary reperfusion, 552
**Research**
Association of creatinine and creatinine clearance on presentation in acute myocardial infarction with subsequent mortality, 1535
Dendritic cells in neointima formation after rat carotid balloon injury: coordinated expression with anti-apoptotic Bcl-2 and HSP47 in arterial repair, 930
Early and long-term clinical outcomes associated with reinfarction following fibrinolytic administration in the Thrombolysis in Myocardial Infarction Trials, 7
Mortality, morbidity, and quality of life after circumferential pulmonary vein ablation for atrial fibrillation, 185
Outcomes of optimal or "stent-like" balloon angioplasty in acute myocardial infarction: the CADILLAC trial, 971
Prospective serial evaluation of myocardial perfusion and lipids during the first six months of pravastatin therapy, 600
Randomized trial comparing primary infarct artery stenting with or without abciximab in acute myocardial infarction, 1880
Randomized trial of aspirin on the risk factors of embolic events in patients with infective endocarditis, 775
Role for peroxynitrite in the inhibition of prostacyclin synthase in nitrate tolerance, 1826
Waiting times, revascularization modality, and outcomes after acute myocardial infarction at hospitals with and without on-site revascularization facilities in Canada, 410
**Restenosis**
*See also* Stenosis
Addition of paclitaxel to contrast media prevents restenosis after coronary stent implantation, 1415
Arterial remodeling patterns before intervention predict diffuse in-stent restenosis, 1731
Mechanisms behind intracoronary radiation therapy failure (letter), 395
Randomized comparison of repeat stenting with balloon angioplasty in patients with in-stent restenosis, 796
**Resynchronization**
Intra-ventricular resynchronization for optimal left ventricular function during pacing in experimental left bundle branch block, 558
**Retrograde coronary perfusion**
Retrograde coronary perfusion: a superior route to deliver therapeutics to the heart? (editorial), 1129
**Revascularization**
From controlled trials to clinical practice: monitoring transmyocardial revascularization use and outcomes, 1611
Incremental value of myocardial viability for prediction of long-term prognosis in surgically revascularized patients with left ventricular dysfunction, 2099
Is there a referral bias against catheterization of patients with reduced left ventricular ejection fraction?, 1286
Viability, prognosis, revascularization, and Pascal (editorial), 2106
Waiting times, revascularization modality, and outcomes after acute myocardial infarction at hospitals with and without on-site revascularization facilities in Canada, 410
**Right atrium**
Expression of angiotensin II receptors in human left and right atrial tissue in atrial fibrillation with and without underlying mitral valve disease, 1785
**Risk assessment and stratification**
Age: a nonmodifiable risk factor? (editorial), 1427
Angiographic variables predict increased risk for adverse ischemic events after coronary stenting with glycoprotein IIb/IIIa inhibition, 981
Association of gene polymorphisms with coronary artery disease in low- or high-risk subjects defined by conventional risk factors, 1429
Clinical prediction models: are we building better mousetraps? (editorial), 851
Coronary vasoregulation in patients with various risk factors in response to cold pressor testing, 814
Dead is dead, but can we identify patients at increased risk for sudden cardiac death? (editorial), 659
Do associations with C-reactive protein and extent of coronary artery disease account for the increased cardiovascular risk of renal insufficiency?, 57
Evaluation of pretest and exercise test scores to assess all-cause mortality in unselected patients presenting for exercise testing with symptoms of suspected coronary artery disease, 842
Incidence and risk factors of cholesterol embolization syndrome, a complication of cardiac catheterization: a prospective study
Left atrium: a biomarker of chronic diastolic dysfunction and cardiovascular disease risk (editorial), 1206
Low body mass index is a risk factor for impaired endothelium-dependent vasodilation in humans: role of nitric oxide and oxidative stress, 256
Non-sustained ventricular tachycardia in hypertrophic cardiomyopathy: an independent marker of sudden death risk in young patients, 873
Platelet glycoprotein IIb/IIIa $P1^{A2}/P1^{A2}$ homozygosity associated with risk of ischemic

cardiovascular disease and myocardial infarction in young men, 661
Practical applications in stress echocardiography, 1084
Prediction of risk for first age-related cardiovascular events in an elderly population: the incremental value of echocardiography, 1199
Randomized trial of aspirin on the risk factors of embolic events in patients with infective endocarditis, 775
Risk assessment for percutaneous coronary intervention: our version of the weather report? (editorial), 1898
Risk stratification in hypertrophic cardiomyopathy (editorial), 880
Simplified scoring system for predicting mortality after percutaneous coronary interventions, 1892
Use of brain natriuretic peptide levels for risk assessment in non–ST-elevation acute coronary syndromes (editorial), 1919
Validation of Mayo Clinic risk adjustment model for in-hospital complications after percutaneous coronary interventions, using the National Heart, Lung, and Blood Institute Dynamic Registry, 1722

**Robotic surgery**
Robot Schmobot . . . (letter), 1532

**Rofecoxib**
Effect of cyclooxygenase-2 inhibition with rofecoxib on endothelial dysfunction and inflammatory markers in patients with coronary artery disease, 1747

**Rosiglitazone**
Effects of rosiglitazone, a peroxisome proliferator-activated receptor-gamma agonist, on markers of endothelial cell activation, C-reactive protein, and fibrinogen levels in non-diabetic coronary artery disease patients, 1757

**Rosuvastatin**
Beneficial pleiotropic vascular effects of rosuvastatin in two hypertensive models, 1091

**Saphenous vein grafts**
Percutaneous treatment of saphenous vein graft disease (editorial), 1370
Prospective, randomized evaluation of thrombectomy prior to percutaneous intervention in diseased saphenous vein grafts and thrombus-containing coronary arteries, 2009
Randomized trial of polytetrafluoroethylene-membrane-covered stents compared with conventional stents in aortocoronary saphenous vein grafts, 1360

**Selective estrogen receptor modulators**
Effects of raloxifene on endothelium-dependent dilation, lipoproteins, and markers of vascular function in postmenopausal women with coronary artery disease, 698

**Septal reduction therapy**
Complete heart block: determinants and clinical impact in patients with hypertrophic obstructive cardiomyopathy undergoing nonsurgical septal reduction therapy, 296

**Shear stress**
Effects of shear stress and flow pulsatility on endothelial function (editorial), 2096

**Sick sinus syndrome**
Randomized comparison of atrial and dual-chamber pacing in 177 consecutive patients with sick sinus syndrome, 614

**Sildenafil**
Oral sildenafil as long-term adjunct therapy to inhaled iloprost in severe pulmonary arterial hypertension, 158

**Silent ischemia**
Long-term outcome of patients with silent versus symptomatic ischemia six months after percutaneous coronary intervention and stenting, 33
Silent ischemia: unsafe at any time (editorial), 41

**Simvastatin**
Efficacy of simvastatin and ezetimibe in treating hypercholesterolemia (letter), 398

**Single-photon emission computed tomography**
Acute beta-blockade reduces the extent and severity of myocardial perfusion defects with dipyridamole Tc-99m sestamibi SPECT imaging, 1475
Incremental value of combined perfusion and function over perfusion alone by gated SPECT myocardial perfusion imaging for detection of severe three-vessel coronary artery disease, 64
Is there a referral bias against catheterization of patients with reduced left ventricular ejection fraction?, 1286
Pinhole single-photon emission computed tomography for myocardial perfusion imaging of mice, 576
Reduction in dipyridamole-induced single-photon emission computed tomography myocardial defect size by beta-blockers (editorial), 1484
Transient ischemic dilation ratio of the left ventricle is a significant predictor of future cardiac events in patients with otherwise normal myocardial perfusion SPECT, 1818

**Sinus rhythm**
Maintenance of sinus rhythm in patients with atrial fibrillation, 20
Restoring sinus rhythm in atrial fibrillation (editorial), 30
Spontaneous conversion of patients with atrial fibrillation scheduled for electrical cardioversion, 1638

**Skeletal muscle**
Anti-inflammatory effects of exercise training in the skeletal muscle of patients with chronic heart failure, 861
Exercise training and skeletal muscle inflammation in chronic heart failure: feeling better about fatigue (editorial), 869
Preserved response of mitochondrial function to short-term endurance training in skeletal muscle of heart transplant recipients, 126

**Skeletal myoblasts**
Catheter-based intramyocardial injection of autologous skeletal myoblasts as a primary treatment of ischemic heart failure: clinical experience with 6 months follow-up, 2063
Stem cell therapy for myocardial repair (editorial), 2070

**Skin**
Recessive mutation in desmoplakin causes arrhythmogenic right ventricular dysplasia, skin disorder, and woolly hair, 319
Statins, skin, and the search for a test of endothelial function (editorial), 78
Statins enhance postischemic hyperemia in the skin circulation of hypercholesterolemic patients, 71

**Smoking**
Does glucocorticoid dysregulation contribute to the link between cigarette smoking and insulin resistance? (letter), 771

**Sodium channel blockers**
Ventricular arrhythmia induced by sodium channel blocker in patients with Brugada syndrome, 1624

**Sotalol**
Treatment of fetal tachycardia with sotalol: transplacental pharmacokinetics and pharmacodynamics, 765

**ST segment**
Glycoprotein IIb/IIIa inhibition in the setting of acute ST-segment elevation myocardial infarction, 1

**ST segment elevation acute myocardial infarction**
Early days after ST segment-elevation acute myocardial infarction (editorial), 420
Renal insufficiency and worsened prognosis with STEMI (editorial), 1544
Symptom-onset-to-balloon time and mortality in patients with acute myocardial infarction treated by primary angioplasty, 991
Synergistic treatment of ST-segment elevation myocardial infarction with pharmacoinvasive recanalization, 646

**Statins**
*See also specific drug*
Beneficial pleiotropic vascular effects of rosuvastatin in two hypertensive models, 1091
Changes in coronary plaque color and morphology by lipid-lowering therapy with atorvastatin: serial evaluation by coronary angioscopy, 680
Clinical decision making on statin drug interactions (letter), 396
Efficacy of simvastatin and ezetimibe in treating hypercholesterolemia (letter), 398
Long-term statin use and psychological well-being, 690
Prospective serial evaluation of myocardial perfusion and lipids during the first six months of pravastatin therapy, 600
Statins enhance postischemic hyperemia in the skin circulation of hypercholesterolemic patients, 71
Through the looking glass (editorial), 687

**Stem cells**
Stem cell therapy for myocardial repair (editorial), 2070

**Stenosis**
*See also* Restenosis
Is aortic stenosis a preventable disease?, 593
Magnetic resonance to assess the aortic valve area in aortic stenosis, 519
Pulmonary vein isolation using transvenous catheter cryoablation for treatment of atrial fibrillation without risk of pulmonary stenosis, 752

**Stents and stenting**
Addition of paclitaxel to contrast media prevents restenosis after coronary stent implantation, 1415
Angiographic variables predict increased risk for adverse ischemic events after coronary stenting with glycoprotein IIb/IIIa inhibition, 981
Beneficial effects of immediate stenting after thrombolysis in acute myocardial infarction, 634
Clinical outcome of patients undergoing non-cardiac surgery in the two months following coronary stenting, 234
Clinical safety of magnetic resonance imaging early after coronary artery stent placement, 1295
Clopidogrel versus ticlopidine after the placement of coronary artery stents (letter), 772
Determinants of target vessel failure in chronic total coronary occlusions after stent implantation, 219
Early exercise after coronary stenting is safe, 1569

Focal ischemia of the brain after neuroprotected carotid artery stenting, 1007
Increased CK-MB release is a "trade-off" for optimal stent implantation: an intravascular ultrasound study, 1902
Long-term outcome of patients with silent versus symptomatic ischemia six months after percutaneous coronary intervention and stenting, 33
Morphologic changes in infarct-related plaque after coronary stent placement, 1558
Randomized comparison of repeat stenting with balloon angioplasty in patients with in-stent restenosis, 796
Randomized trial comparing primary infarct artery stenting with or without abciximab in acute myocardial infarction, 1880
Randomized trial of polytetrafluoroethylene-membrane-covered stents compared with conventional stents in aortocoronary saphenous vein grafts, 1360

**Strain rate imaging**
Myocardial strain rate is a superior method for evaluation of left ventricular subendocardial function compared with tissue Doppler imaging, 1574
Strain rate imaging: why do we need it? (editorial), 1584

**Streptozotocin**
Streptozotocin-induced hyperglycemia exacerbates left ventricular remodeling and failure after experimental myocardial infarction, 165

**Stress**
Patients with early diabetic heart disease demonstrate a normal myocardial response to dobutamine, 446

**Stress echocardiography**
Practical applications in stress echocardiography, 1084

**Stress testing**
*See* Exercise testing

**Stroke**
Atrial anatomy in non-cardioembolic stroke patients, 1066
Prevalence of atrial fibrillation in incident stroke cases and matched population controls in Rochester, Minnesota, 93
Role of left atrial appendage obliteration in stroke reduction in patients with mitral valve prosthesis, 1253
Thoracoscopic extracardiac obliteration of the left atrial appendage for stroke risk reduction in atrial fibrillation, 1249

**ST-segment**
Sulfonylureas attenuate electrocardiographic ST-segment elevation during an acute myocardial infarction in diabetics, 1017

**ST-segment elevation myocardial infarction**
Optimizing outcomes in ST-segment elevation myocardial infarction (editorial), 1357
Safety and efficacy of subcutaneous enoxaparin versus intravenous unfractionated heparin and tirofiban versus placebo in the treatment of acute ST-segment elevation myocardial infarction patients ineligible for reperfusion (TETAMI), 1348

**Sudden death**
Dead is dead, but can we identify patients at increased risk for sudden cardiac death? (editorial), 659
Does sports activity enhance the risk of sudden death in adolescents and young adults?, 1961
Identifying athletes at risk for sudden death (editorial), 1966
Non-sustained ventricular tachycardia in hypertrophic cardiomyopathy: an independent marker of sudden death risk in young patients, 873
Prediction of sudden cardiac death after myocardial infarction in the beta-blocking era, 652

**Sulfonylureas**
Sulfonylurea controversy (editorial), 1022
Sulfonylureas attenuate electrocardiographic ST-segment elevation during an acute myocardial infarction in diabetics, 1017

**Supraventricular arrhythmias**
ACC/AHA/ESC Guidelines for the Management of Patients With Supraventricular Arrhythmias—Executive Summary, 1493

**Surgery**
*See also* Ablation; Coronary artery bypass grafting; Radiofrequency ablation
Clinical outcome of patients undergoing non-cardiac surgery in the two months following coronary stenting, 234
Heart rate variability and cardiac troponin I are incremental and independent predictors of one-year all-cause mortality after major noncardiac surgery in patients at risk of coronary artery disease, 1767
Prospective echocardiographic diagnosis and surgical repair of anomalous origin of a coronary artery from the opposite sinus with an interatrial course, 148

**Sympathetic nerve**
Peripheral sympathetic control during dobutamine infusion: effects of aging and heart failure, 1605
Sympatholysis and cardiac sympathetic nerve function in the treatment of congestive heart failure (editorial), 549

**Sympathetic neural activation**
Effects of exercise training on sympathetic neural activation in advanced heart failure, 854

**Sympatholysis**
Sympatholysis and cardiac sympathetic nerve function in the treatment of congestive heart failure (editorial), 549

**Syncope**
Cost implications of testing strategy in patients with syncope, 495

**Systolic function**
Hearts late after Fontan operation have normal mass, normal volume, and reduced systolic function, 1061

**Systolic pressure**
Physical activity reduces genetic susceptibility to increased central systolic pressure augmentation: a study of female twins, 264

**Tachyarrhythmias**
Cardiac resynchronization therapy for the treatment of heart failure in patients with intraventricular conduction delay and malignant ventricular tachyarrhythmias, 1454
Lipid-lowering therapy for prevention of ventricular tachyarrhythmias (editorial), 88

**Tachycardia**
*See also* Atrial tachycardia; Ventricular tachycardia
Termination of paroxysmal supraventricular tachycardia by tecadenoson (CVT-510), a novel $A_1$-adenosine receptor agonist, 1098
Treatment of fetal tachycardia with sotalol: transplacental pharmacokinetics and pharmacodynamics, 765

**Tadalafil**
Time course of the interaction between tadalafil and nitrates, 1855

**Target vessel failure**
Determinants of target vessel failure in chronic total coronary occlusions after stent implantation, 219

**Tecadenoson**
Termination of paroxysmal supraventricular tachycardia by tecadenoson (CVT-510), a novel $A_1$-adenosine receptor agonist, 1098

**Tenecteplase**
Outcome of urgent and elective percutaneous coronary interventions after pharmacologic reperfusion with tenecteplase combined with unfractionated heparin, enoxaparin, or abciximab, 1178

**Tezosentan**
Hemodynamic and clinical effects of tezosentan, an intravenous dual endothelin receptor antagonist, in patients hospitalized for acute decompensated heart failure, 140

**Thiazolidinediones**
Is the tolerability of long-term thiazolidinedione therapy overstated? (letter), 1334

**Thoracic aorta**
Is aortic dilatation an atherosclerosis-related process?, 1076

**Thoracoscopy**
Thoracoscopic extracardiac obliteration of the left atrial appendage for stroke risk reduction in atrial fibrillation, 1249

**Thoracotomy**
Competing autonomic mechanisms precede the onset of postoperative atrial fibrillation, 1262

**Thrombectomy**
Intracoronary thrombectomy improves myocardial reperfusion in patients undergoing direct angioplasty for acute myocardial infarction, 1395
Prospective, randomized evaluation of thrombectomy prior to percutaneous intervention in diseased saphenous vein grafts and thrombus-containing coronary arteries, 2009

**Thromboembolism**
Obliteration of the left atrial appendage for prevention of thromboembolism (editorial), 1259

**Thrombolysis**
Beneficial effects of immediate stenting after thrombolysis in acute myocardial infarction, 634
"Watchful waiting" after thrombolysis (editorial), 17

**Thrombosis**
Clinical outcome of patients undergoing non-cardiac surgery in the two months following coronary stenting, 234
Pulmonary thrombosis in adults with Eisenmenger syndrome, 1984

**Thromboxane**
Thromboxane inhibition improves renal perfusion and excretory function in severe congestive heart failure, 133

**Thrombus**
Prospective, randomized evaluation of thrombectomy prior to percutaneous intervention in diseased saphenous vein grafts and thrombus-containing coronary arteries, 2009

**Ticlopidine**
Clopidogrel versus ticlopidine after the placement of coronary artery stents (letter), 772

**Tirofiban**
Safety and efficacy of subcutaneous enoxaparin versus intravenous unfractionated heparin and tirofiban versus placebo in the treatment of acute ST-segment elevation myocardial infarction patients ineligible for reperfusion (TETAMI), 1348
Triple antiplatelet therapy during percutaneous

coronary intervention is associated with improved outcomes including one-year survival, 1188

**Tissue Doppler imaging**
Myocardial strain rate is a superior method for evaluation of left ventricular subendocardial function compared with tissue Doppler imaging, 1574
Return of cardiac time intervals (editorial), 1471
Time interval between onset of mitral inflow and onset of early diastolic velocity by tissue Doppler: a novel index of left ventricular relaxation, 1463

**Tomography**
*See* Computed tomography; Single-photon emission computed tomography

**Transesophageal echocardiography**
Obliteration of the left atrial appendage for prevention of thromboembolism (editorial), 1259

**Transient ischemic dilation ratio**
Transient ischemic dilation ratio of the left ventricle is a significant predictor of future cardiac events in patients with otherwise normal myocardial perfusion SPECT, 1818

**Transient left ventricular apical ballooning**
Transient left ventricular apical ballooning and outflow tract obstruction (letter), 1143

**Transmyocardial revascularization**
From controlled trials to clinical practice: monitoring transmyocardial revascularization use and outcomes, 1611

**Transplantation**
*See* Heart transplantation

**Triphasic waveforms**
Triphasic waveforms are not superior to biphasic waveforms for transthoracic defibrillation, 568

**Troponins**
Are levels of C-reactive protein and troponin T the best predictors of mortality after acute coronary syndrome? (letter), 1144
Association of cardiac troponin, CK-MB, and postoperative myocardial ischemia with long-term survival after major vascular surgery, 1547
Cardiac troponin I in acute pericarditis, 2144
Heart rate variability and cardiac troponin I are incremental and independent predictors of one-year all-cause mortality after major noncardiac surgery in patients at risk of coronary artery disease, 1767
Small step for man, a leap forward for postoperative management (editorial), 1555

**Tumor necrosis factor-alpha**
Effect of tumor necrosis factor-alpha on endothelial and inducible nitric oxide synthase messenger ribonucleic acid expression and nitric oxide synthesis in ischemic and nonischemic isolated rat heart, 1299
Induction of left ventricular remodeling and dysfunction in the recipient heart after donor heart myocardial infarction, 173

**T-wave alternans**
Ventricular arrhythmia induced by sodium channel blocker in patients with Brugada syndrome, 1624

**Ultrasound**
*See also* Intravascular ultrasound
Arterial remodeling patterns before intervention predict diffuse in-stent restenosis, 1731
Increased CK-MB release is a "trade-off" for optimal stent implantation: an intravascular ultrasound study, 1902
Intravascular ultrasound assessment of patterns of arterial remodeling in the absence of significant reference segment plaque burden in patients with coronary artery disease, 806
Optimization of ultrasound parameters for cardiac gene delivery of adenoviral or plasmid deoxyribonucleic acid by ultrasound-targeted microbubble dispersion, 301
Ultrasound tissue characterization detects preclinical myocardial structural changes in children affected by Duchenne muscular dystrophy, 309

**Unfractionated heparin**
Outcome of urgent and elective percutaneous coronary interventions after pharmacologic reperfusion with tenecteplase combined with unfractionated heparin, enoxaparin, or abciximab, 1178
Safety and efficacy of subcutaneous enoxaparin versus intravenous unfractionated heparin and tirofiban versus placebo in the treatment of acute ST-segment elevation myocardial infarction patients ineligible for reperfusion (TETAMI), 1348

**Unstable angina pectoris**
*See* Angina pectoris

**Valve surgery**
Age does not limit quality of life improvement in cardiac valve surgery, 1208
Valve surgery in the elderly (editorial), 1215

**Valvular heart disease**
Choice of prosthetic heart valves: update for the next generation, 1717
Highlights of the 52nd Annual Scientific Session of the American College of Cardiology, 375

**Vascular remodeling**
Vascular remodeling: do we really need yet another study? (editorial), 811

**Vasculopathy**
C-reactive protein and cardiac allograft vasculopathy: is inflammation the critical link? (editorial), 483
Plasma C-reactive protein as a marker of cardiac allograft vasculopathy in heart transplant recipients, 477

**Vasoconstriction**
Inflammation-induced vasoconstrictor hyporeactivity is caused by oxidative stress, 1656

**Vasoregulation**
Coronary vasoregulation in patients with various risk factors in response to cold pressor testing, 814

**Vein of Marshall**
High resolution mapping of the pulmonary vein and the vein of Marshall during induced atrial fibrillation and atrial tachycardia in a canine model of pacing-induced congestive heart failure, 348

**Ventricles**
*See* Left ventricle
Hearts late after Fontan operation have normal mass, normal volume, and reduced systolic function, 1061

**Ventricular arrhythmias**
Ventricular arrhythmia induced by sodium channel blocker in patients with Brugada syndrome, 1624

**Ventricular conduction delay**
Clinical efficacy of cardiac resynchronization therapy using left ventricular pacing in heart failure patients stratified by severity of ventricular conduction delay, 2109

**Ventricular fibrillation**
Cardiac resynchronization therapy for the treatment of heart failure in patients with intraventricular conduction delay and malignant ventricular tachyarrhythmias, 1454
Triphasic waveforms are not superior to biphasic waveforms for transthoracic defibrillation, 568

**Ventricular pre-excitation**
Electrophysiologic characterization and postnatal development of ventricular pre-excitation in a mouse model of cardiac hypertrophy and Wolff-Parkinson-White syndrome, 942

**Ventricular repolarization**
Ventricular repolarization components on the electrocardiogram, 401

**Ventricular tachyarrhythmias**
Cardiac resynchronization therapy for the treatment of heart failure in patients with intraventricular conduction delay and malignant ventricular tachyarrhythmias, 1454
Lipid-lowering therapy for prevention of ventricular tachyarrhythmias (editorial), 88

**Ventricular tachycardia**
Cardiac resynchronization therapy for the treatment of heart failure in patients with intraventricular conduction delay and malignant ventricular tachyarrhythmias, 1454
Non-sustained ventricular tachycardia in hypertrophic cardiomyopathy: an independent marker of sudden death risk in young patients, 873
Recognition of far-field electrograms during entrainment mapping of ventricular tachycardia, 110
Triphasic waveforms are not superior to biphasic waveforms for transthoracic defibrillation, 568

**Viral myocarditis**
Attenuation of virus-induced myocardial injury by inhibition of the angiotensin II type 1 receptor signal and decreased nuclear factor-kappa B activation in knockout mice, 173

**Vitamin C**
To C or not to C, that is the question (editorial), 253
Coronary vasoregulation in patients with various risk factors in response to cold pressor testing, 814
Inflammation-induced vasoconstrictor hyporeactivity is caused by oxidative stress, 1656
Vitamin C and risk of coronary heart disease in women, 246

**Vitamin K**
Optimal intensity of vitamin K antagonists in patients with mechanical heart valves; a meta-analysis, 2042

**Wolff-Parkinson-White syndrome**
Electrophysiologic characterization and postnatal development of ventricular pre-excitation in a mouse model of cardiac hypertrophy and Wolff-Parkinson-White syndrome, 942

**Women**
*See also* Gender; Postmenopausal women
Androgens up-regulate atherosclerosis-related genes in macrophages from males but not females, 1306
Better survival for women with heart failure? It's not so simple . . . (editorial), 2135
Effects of raloxifene on endothelium-dependent dilation, lipoproteins, and markers of vascular function in postmenopausal women with coronary artery disease, 698
Hormone replacement therapy is associated with improved survival in women with advanced heart failure, 1238
Peak oxygen intake and cardiac mortality in women referred for cardiac rehabilitation, 2139
Vitamin C and risk of coronary heart disease in women, 246
